Extended Maintenance Contract Coverage

- A. During the term of this agreement, Smith-Root factory technicians will perform cleaning of internal component parts, electronic repairs and calibration once (1) per year.
- B. During this maintenance period, upgrades to current specifications will be performed to factory standards. The unit will be recertified and issued a SRI certification label.
- C. All labor and materials will be included in the yearly inspection.
- D. A comparable loaner unit may be available in the event of an unforeseen equipment failure during a field project. This is subject to availability and shipping charges are extra.
- E. Items not covered by this contract:
 - 1. Electrode Poles, Rings, Rat-tails, Batteries, Battery Chargers, Suspension System, and Carry Case.
 - 2. All products or parts thereof which have been altered or repaired outside of the SRI factory or damaged by improper installation or application, or subjected to misuse, abuse, neglect, normal wear and tear or accident.

Annual Service Procedures

- A. The owner is responsible for freight charges to and from Smith-Root, Inc.
- B. Prior to shipping units contact the Service Contract Coordinator 360-573-0202 and complete Form # 00114 Repair Maintenance Authorization. One is provided for you on the following page or you may download a repair form: www.smith-root.com select support / forms / #00114.
